H.R. 4040-Consumer Product Safety Improvement Act of 2008

Products: Styrolution America Polystyrene

Version 1.0

Date: 01 December, 2014

Contact: Styrolution America LLC 4245 Meridian Parkway

Suite #151

Aurora, IL 60504 USA

E-Mail: infopoint.americas@styrolution.com

We hereby declare that regarding the composition of the product(s) manufactured and identified as:

Crystal Polystyrene: 1200, 1201, 1290, 1291, 1300, 1301, 1600, 1611, 1621, 1700, 2600, 2601, 2610, 3100, 3101, 3190, 3191, 3600, 3601

Impact Polystyrene: 5300, 5310, 5400, 5401, 5410, 5600, 5601, 5801, 6200, 6201, 6210, 6220, 6230, 7120, 7800

Lead

As shipped and supplied to you, these products do not contain any lead or lead compounds as intentional additives or ingredients.

Based on our knowledge of the manufacturing process and the raw materials used during production, the incidental level of lead is not expected to exceed 100 ppm by weight in the products as shipped. Styrolution America LLC has tested representative polystyrene grades and lead was not detected within the limits of the analytical techniques used (5 ppm). Therefore, the listed polystyrene grades would be in compliance with the standard requiring lead to be present at not more than 100 ppm maximum by August 14, 2011.

Phthalates

Please be advised that Styrolution America LLC does not deliberately add any phthalates to the above listed products. This includes di (2-ethylhexyl) phthalate (DEHP; CAS# 117-81-7), di butyl phthalate (DBP; CAS# 84-74-2), benzyl butyl phthalate (BBP; CAS# 85-68-7), diisononyl phthalate (DINP; CAS# 71549-78-5), diisodecyl phthalate (DIDP; CAS# 26761-40-0), and di-n-octyl phthalate (DNOP; CAS # 117-84-6). Based on responses from our suppliers, such substances are not present in any of the raw materials used in the manufacture of these resins. While we have not specifically analyzed for the presence of these substances, we have no reason to suspect that such substances would be present in the resins as produced by Styrolution America LLC at individual concentrations exceeding 0.1%.

Given the above, we can state that our polystyrene products would be in compliance with the Consumer Product Safety Improvement Act of 2008, H.R. 4040 and its enforced limitations for calendar year 2011.

H.R. 4040-Consumer Product Safety Improvement Act of 2008

Products: Styrolution America Polystyrene

Version 1.0

Date:01 December, 2014

As a resin supplier, Styrolution America cannot be held responsible for any processing which may occur to produce finished articles, compounds, packaging materials or their component(s).

For notice:

Many substances are ubiquitous. The observance of all these substances is not part of our ongoing production control. In view of the many factors that may effect processing and application of our products, these data do not relieve processor from carrying out own investigations and tests neither do these data imply any guarantee for certain properties nor the suitability of the product for a specific purpose. It is the responsibility of the recipient of our products to ensure that any proprietary rights and existing laws and legislation are observed.

Please note that this declaration is only valid for prime products manufactured within NAFTA.
